well I know the things you wear too easy  
come on  
fuck off  
dont tell me anything  
I can't hear my thoughts through this broken mind  
get up  
get up  
just tell me everytzing  
just tell yourself  
for your beliefs  
fuck yourself for what you need  
dont believe a word I say  
really doesn't Matter anyway  
dont believe a word I say  
well everything you know is just what they want you to  
think  
come on fuck off  
dont tell me anything  
I know that everything will be just fine  
get up  
get up  
just tell me anything  
just tell yourself  
for your beliefs  
fuck yourself for what you need  
dont believe a word I say  
it really doesn't matter anyway  
dont believe a word I say

empty fields move me so much more then rooms filled  
up with friends  
the way the trees look dead  
reminds me that theres more to life then living  
maybe giving ups not bad, but part of letting go of you

if i surrender to this feeling maybe all the aches and  
pains will go and i can close my eyes  
never again to have them open till i bleed out all ive  
been  
i dont want to be alone no more  
no more

so take this razor, sign your name accross my wrists  
so everyone will know who left me like this

show me all my scars scars run deep  
maybe mine are not to forget the times that weve had

empty fields move me so much more then rooms filled  
up with friends  
the way the trees look dead  
rimind that theres more to life then living  
maybe giving ups not bad, but part of letting go of you

so take this razor, sign your name accross my wrists  
so everyone will know who left me like this

show me all my scars run deep  
maybe mine are not to forget the times weve had

never wait another second i have waisted so much time  
and i have waisted so much time  
so much time  
so much time

so take this razor, sign your name across my wrists  
so everyone will know who left me like this  
show me all my scars run deep
