Tell me just who you think you are
To find a girl and break her heart.
Do all my friends do it the same?
It's not for love, stay away from him.

You'd be the last one I'd expect to act like this.
You'd be the last one I'd expect to act like, this.

It's time to never let this happen,
A million times again.
It's time to put these reflexes to rest, yeah.

Tell me just what you really want,
They say it's love, you're just fucked up.
Tell me just what you really say
To make them think they love you.

You'd be the last one I'd expect to act like this.
You'd be the last one I'd expect to act like, this.

It's time to never let this happen,
A million times again.
It's time to put these reflexes to rest, yeah, yeah!

I'm sorry I can't care
About your stupid lies
But today is the first day of the rest of your life
