Woke up with you its dawning, im still alive.
Turned on my radio to start a new day,
as goddamn DJs chattered how to survive
Amazing new got over on the airwaves!

Tonight, love is rationed
Tonight, across the nation
Tonight, love infects worldwide,
almost another day.

Shes a shooting star, good night
good night
good night,
Shes a shooting star, good bye!

Tonight, love is rationed
Tonight, across the nation
Tonight, love infects worldwide,
almost another day.

(See you some otherday)
