No more playing the field for me  
Since I met you, my heart's not free  
I just wanna be exclusively yours

Once you kissed me, I found out  
There's no other I care about  
I just wanna be exclusively yours

I'll take you to the dance  
I'll take you to the show  
I'll take you every single place  
You ever wanna go

I don't care where it is  
I don't care what we do  
As long as I can just  
Be there with you

If it's my love you're longing for  
You can have it forever more  
I just wanna be exclusively yours

I'll take you to the dance  
I'll take you to the show  
I'll take you every single place  
You ever wanna go

I don't care where it is  
I don't care what we do  
As long as I can just  
Be there with you

If it's my love you're longing for  
You can have it forever more  
I just wanna be exclusively yours

I just wanna be exclusively yours
