If you let me be a part of you  
If you tell me what I gotta do  
Maybe I could change  
I don't wanna see another day  
If I ever let you walk away from the love we have

And here I can't see why  
I need her close to me  
She's everything  
Everything that I ever wanted here  
Woh she's everything  
And I don't wanna make believe

Never needed anyone before  
Never knew you could give me more than I ever had  
I don't wanna be afraid again  
You're the one that saves me when I'm falling from you  
And here I can't see why  
I need her close to me  
She's everything  
Everything that I ever wanted here  
Woh she's everything  
And I don't wanna make believe

I'll never be what you make me  
Take me now  
Trying to find if there's a way to make you mine

She's everything  
Everything that I ever wanted here  
Woh she's everything  
And I don't wanna make believe  
She's everything
