Were gettin by uncivilised conversation
Makin light of a difficult situation
Lets get this done, I gotta go
We could pretend it don't matter at all
We had our share of the typical expectations
Its fair to say we never tried to meet them
I got no clue where you are
And I don't care anymore
[Chorus]
Who you gonna call when they fool around
Well I guess you didn't mean to go and let me down
Who you gonna need, I wont take it personally
Cause after all Im not that cold
Ive been around here longer than your other friends
Cause I remember introducing them
They say he's got a way to go
I say where he goes I'll follow
Who you gonna call when they fool around
Well I guess you didn't mean to go and let me down
Who you gonna need, I wont take it personally
Cause after all Im not that cold
No after all Im not that cold
[Music]
Who you gonna call when they fool around
Well I guess you didn't mean to go and let me down
Who you gonna need, I wont take it personally
Guess after all Im not that cold
No after all Im not that cold
No after all Im not that cold
After all Im not that cold
