I really really want to kiss you
But I'm much more than that
Boy I'm gonna blow your mind

It ain't long that we've known each other
It ain't long but I know you've got me so
confused
I'm so confused, it ain't ever rushed me baby
We're much more than a crush
So take your baby hands your from the wheel
I think I've got something to reveal

Boy slow down, stop
Tell me how does it feel unbelievably

I really, really want to kiss you
(Really, really, really, really
Really, really, really, really)
Can't lie I already miss you
(Really, really, really, really)

But much more than that
Your dream is gonna come true
Boy I'm gonna blow your mind

It ain't long that we've been together
I'm so glad you're my friend I put my
trust in you
I'm trusting you, I know you'd never
hurt me baby
So get me a little sure
So let your hands touch me so fine
Where the sun don't shine

Boy slow down, stop
Tell how does it feel, unbelievably

I really, really want to kiss you
(Really, really, really, really
Really, really, really, really)
I already miss you
(Really, really, really, really)

(Really, really, really, really)

But IÃ¢â€Œ™ m much more than that
Your dream is gonna come true
(Really, really, really, really)
(Really, really, really, really)

Boy IÃ¢â€Œ™ m gonna blow your mind
Boy IÃ¢â€Œ™ m gonna blow your mind
Hit me baby one more time

Boy slow down, stop
Tell me how does it feel, unbelievably

I really, really want to kiss you
(Really, really, really, really)
(Really, really, really, really)
Hear I already miss you
(Really, really, really, really)
(Really, really, really, really)

But IÃ¢â€Œ™ m much more than that
Your dream is gonna come true
(Really, really, really, really)
(Really, really, really, really)

Boy IÃ¢â€Œ™ m gonna blow your mind
Boy IÃ¢â€Œ™ m gonna blow your mind
And do it till the end of time
