You said that we were cool  
But u never follow through  
What happened to the boy I thought I knew  
Today we start again  
But tomorrow it could end  
With the saddest face I get tired of all this games

You seem happy  
Then you change your mind  
In a heartbeat

You're up, you're down confused  
You spin around  
You're lost inside my head  
And I don't wanna waste my time  
In trying to deal with the both of you  
You're hot you're cold I'm lost  
I'm scared to kno all the things you say  
And I don't wanna wait falling  
After all that you put me through  
The both of you

So who are you today  
Whose lie you're gonna play  
Everytime I believe you find a way  
To give you one more chance  
And to prove to me it'll last  
But you never do  
I can never count on you

Will you be happy  
When you're all alone  
Cause I wont be

You're up, you're down confused  
You spin around  
You're lost inside my head  
And I don't wanna waste my time  
In trying to deal with the both of you  
You're hot you're cold I'm lost  
I'm scared to kno all the things you say  
And I don't wanna wait falling

After all that you put me through  
The both of you

Don't speak  
Just let me think outloud  
So why you're trying to work this out  
I kno you care  
But howcome when I need you you're not there  
Don't you dare to turn back now

You're up, you're down confused  
You spin around  
I'm lost inside your head  
And I don't wanna waste my time  
In trying to deal with the both of you  
You're hot you're cold I'm lost  
I'm scared to kno all the things you say  
And I don't wanna wait falling  
After all that you put me through  
The both of you
