(Kim Carnes/Dave Ellingson)

What am I gonna do till you come home

What am I gonna do now that you're gone

What am I gonna do without you

What am I gonna do without a man

What am I gonna do

You do the best you can

What am I gonna do without you

What am I gonna do with all my time

I'll just drown my dreams in sweet wine

What am I gonna do without you

Now what are you gonna do without me

Who's gonna give you all the things you need

What are you gonna do without me

What are you gonna do it you come home

And the woman you thought was waitin' for you is gone

What are you gonna do it you come home

Now what am I gonna do till you come home

What am I gonna do now that you're gone

What am I gonna do without you

What am I gonna do without you
