Twelve gallons of urine right in your face  
Yet you cry for more but my cock now spits blood  
Your lust for my human champagne's nice to see  
Your big mouth is the best bowl for me to pee  
Open it wide and swallow it swine  
And beg once again to taste my private wine  
I'll beat you to death if you turn your head  
The liquid divine must be appreciated

Urine facewash

You feel it on your cheeks  
Feel the hot stream rushing down your neck  
You spread it all over your breasts  
The pretty sight pleases me as I cum on your hair  
You're beautiful, you're beautiful

You're my urea babe honey  
My blatter goddess in wet pants  
You're the one to love the real way  
I'll give you my heart but now take this  
An energy drink delivery  
Close your eyes and say "Aaaah"  
A free urine giveaway  
The best gargling will win...

In the name of Gagnahon  
I curse you to be sacrificed on the altar of piss  
Savour the bliss...  
Savour the bliss...
