In the blue of this life
Where it ends in the light
When you couldn't see
You would come for me

Wonder eyes motion high
When we don't dare slip on by
Make us suffer
Like no other

There's nothing like Lapis lazuli
Let it go back to me

Like no other, you can't be replaced
Like no other, you can't be replaced
Like no other, you can't be replaced
Like no other, you can't be replaced

Like no other, you can't be replaced
Like no other, you can't be replaced
Like no other, you can't be replaced
Like no other, you can't be replaced

There's nothing like Lapis lazuli
Like no other, you can't be replaced
There's nothing like Lapis lazuli
Like no other, you can't be replaced

There's nothing like Lapis lazuli
Like no other, you can't be replaced
There's nothing like Lapis lazuli
Like no other, you can't be replaced
