(You) cry cry again
Don't you want to stay awake?
I feel something going wrong now
Keep keep it on
Soon your tears
Will start to fade
Your breath is getting very long

It's all around
Faces, places
Dreams are starting now
I just wanna fly

Go to Spain in the sun
Dance away in the sun
We're okay in the sun
Smiles are born in Spain

Hear hear it now
All the sounds have flown away
Just you ticking to the end
See see your life
Drawing white lines in the air
I'm here to carry you out there

It's all around
Lightness, brightness
Dreams are starting now
I just wanna fly

Go to Spain in the sun
Dance away in the sun
We're okay in the sun
Smiles are born in Spain (repeat to fade)
