All alone I'm left behind
You are the only one on my mind
I would throw my life away
If I could catch just another day

With you...

I see your face in everything
Taking me back to where we begin
A scent, a sound, I feel you near
Why can't I hold you, I need you here

But we got lost
Something's lost

It's over
She's leaving
I hold her
I'm freezing
Still breathing but older
Now is true
My heart will burn for you

It hurts so much I can't hide
Like twisting a knife buried deep inside
Shout in pillows hold my tears
Hoping I get back those golden years

But we got lost
Something's lost

It's over
She's leaving
I hold her
I'm freezing
Still breathing but older
Now is true
My heart will burn for you

I would throw my life away
If I could catch just another day
With you

It's over
Now is true
My heart will burn for you
