"Shadowplay"

To the centre of the city where all roads meet, waiting
for you
To the depths of the ocean where all hopes sank,
searching for you
I was moving through the silence without motion,
waiting for you
In a room without window in the corner, I found truth

In the shadowplay, acting out your own death, knowing
no more
As the assassins all grouped in four lines, dancing on
the floor
And with cold steel, odour on their bodies made a
move to connect
But I could only stare in disbelief as the crowds all left

I did everything, everything I wanted to
I let them use you for their own ends
To the centre of the city in the night, waiting for you
To the centre of the city in the night, waiting for you
