"And When He Smiles"

Visit "[And When He Smiles](#)" on MotoLyrics.com

(From "Live At BBC, 1971")

And when he smiles he makes the sun shine

He wouldn't think to make it rain

Happiness runs in the family

And he's a boy from the good old earth and the high
tree forest

And he's just about the happiest boy that I ever knew
And when he smiles he makes me sigh

He doesn't have a point of view

Happiness runs in the family

And he's a boy from the good old earth and the high
tree forest

And he's just about the happiest boy that I ever knew
And when he smiles he makes the sun shine

And warms the day with morning dew

Happiness runs in the family

And he's a boy from the good old earth and the high
tree forest

And he's just about the happiest boy that I ever knew

And he's just about the happiest boy that I ever knew
