In your mind you have capacities you know
To telepath messages through the vast unknown
Please close your eyes and concentrate
With every thought you think
Upon the recitation we're about to sing

Calling occupants of interplanetary craft
Calling occupants of interplanetary most extraordinary
craft

(*)Calling occupants of interplanetary craft
Calling occupants of interplanetary craft
Calling occupants of interplanetary, most extraordinary
craft

You've been observing our earth
And we'd like to make a contact with you

We are your friends

Calling occupants of interplanetary craft
Calling occupants of interplanetary ultra-emissaries

We've been observing your earth
And one night we'll make a contact with you

We are your friends

Calling occupants of interplanetary quite extraordinary
craft

And please come in peace, we beseech you
Only a landing will teach them
Our earth may never survive
So do come, we beg you
Please interstellar policeman
Oh won't you give us a sign
Give us a sign that we've reached you

With your mind you have ability to form
And transmit thought energy far beyond the norm
You close your eyes, you concentrate

Together that's the way
To send the message
We declare world contact day

Repeat (*)

Calling occupants
Calling occupants
Calling occupants of interplanetary, anti-adversary
craft

We are your friends
