We fell in love
On the first night that we met
Together
We've been happy
I have very few regrets
The ordinary problems
Have not been hard to face
But lately little changes
Have been slowly taking place
You're always finding something
Is wrong in what I do
But you can't rearrange my life
Because it pleases you
(*) You've got to love me
For what I am
For simply being me
Don't love me
For what you intend
Or hope that I will be
And if you're only using me
To feed your fantasy
You're really not in love

So let me go

I must be free
If what you want

Isn't natural for me

I won't pretend to keep you

What I am I have to be

The picture of perfection

Is only on your mind

For all your expectations

Love can never be designed

We either take each other

For everything we are

Or leave the life

We've made behind

And make another start
Repeat (*)
And if you're only using me

To feed your fantasy

You're really not in love

So let me go

I must be free
You're really not in love

So let me go

I must be free
