"Love Me For What I'm"

We fell in love on the first night that we met,
Together we've been happy, I have very few regrets.
The ordinary problems have not been hard to face,
but lately little changes have been slowly taking place.
You're always finding something wrong in what I do,
but you can't rearrange my life because it pleases you.

(Chorus)

You've got to LOVE ME FOR WHAT I AM for simply being
me.

Don't love me for what you intend or hope that I will be,
And if you're only using me to feed your fantasy,
you're really not in love, so let me go.
I must free.

If what you want isn't natural for me,
I won't pretend to keep you, what I am I have to be.
The picture of perfection is only in your mind,
for all you expectations love can never be designed.
We either take each other for ev'rything we are,
or leave the life we've made behind and make another
start.

(repeat chorus)
