Verse 1:

These days are slipping by  
Right before my eyes  
I see what I've become  
And I don't understand why  
I'm finding it hard to be  
The person you want in me  
Ignite my passion for you  
Blaze within me, make me new

Chorus:

And I know, I know that you are near  
I'll cry to you so I may be right where you are  
And I know, I know that you're not far  
I'll reach for you just like the tree  
Stretches for the sun

Verse 2:

Another day has come  
The storm has just begun  
You're breaking through my clouds  
I can feel your rays of love

(Chorus)

Bridge:

Your rays of love  
Your rays of peace  
Your rays of hope  
Are getting through to me

(Chorus)
