Verse 1:

I'm spinning round and round again  
Will this circle that I'm in never end  
Come and save me before I do it  
All over again  
Never thought I'd be in the same place I'm in

Just when I think I've got out on top  
I do it again, it feels like I just can't stop  
Doing the same mistakes all over again

Chorus:

I'm gonna try a little harder  
I'm gonna look a little deeper than before  
I'm gonna walk a little closer to him

Verse 2:

I'm spinning round and round again  
In this game that I play I can never win  
Will you be my strength when I get back up again  
Never thought I'd be in the same place I'm in

Jesus break these chains so I can see  
The wonders and miracles you have for me  
I dwell on the things you have done before  
Help me to know that they don't matter anymore

(Chorus)

Just when I think I've got out on top  
I do it again, it feels like I just can't stop  
Doing the same mistakes all over again  
Jesus I don't wanna make you cry

(Chorus)
