"A Thousand Suns"

I can hear the ancients, calling out
They're praying for patience
Shining down
But the light has faded, like the sun
And I'm persuaded
That nothing now can be done

Cant even hear them now
Their light is growing dim
And I've been covering, covering ground
Climbing barriers between us now
And we wait

Cant even see them now
The arc will swing again
And I've been covering, covering ground
Crossing barriers that still surround
And we wait

A thousand suns
We wait for them
The fallen ones
Will wake again

A thousand suns,
We wait for them
The fallen ones
Will wake again

A thousand suns,
We wait for them
The fallen ones
Will wake again

A thousand suns,
We wait for them
The fallen ones
Will wake again

Put all emotion aside
No matter how hard you try

Take what is burried inside
You want it, you got it, you might
Put all emotion aside
No matter how hard you try
Take what is burried inside
You want it, you got it, goodbye.
