I hear you calling out my name
All of the elements will fade
Never before has love looked safe
Never again will it look the same

But then we fall back now to this empty house
There the wars will rage
And if you leave me now in this empty house
Baby, it's okay

Oh, and it's only you, yeah, it's only you
It's only you and me
Oh, and it's only you, yeah, it's only you
It's only you and me, yeah

And I feel you crawling out my veins
Leaving the walls inside with flames
Burning the emptiness I've saved
Until lonely you remain

But then my lungs collapse and you pull me out
Forever I've been changed
Honey, you can take me now 'til it all runs out
Baby, it's okay

Oh, but there's only you, yeah, it's only you
It's only you I see
Girl, if it's only you, yeah, it's only you
It's only you and me, yeah

Can you feel it now? I've weighed it all out
Here and now my world turns inside out
And I swear I, I hear you calling
I hear you calling out my name

Only you, yeah, it's only you
It's only you I see
Girl, if it's only you, yeah it's only you
It's only you and me, yeah

It's only you, yeah, it's only you
It's only you I see

It's only you, yeah, it's only you
It's only you and me
