Maybe if it rains, we could go outside.
Hold each other close, hold each other tight.
You're the one thing that I want,
When it's pouring in my life.
And maybe if it rains, we could go outside,
Maybe if it rains, we could go outside.

You know I was thinking that I'd like to settle down.
To an old tired house, just outside of town.
Sell everything, plant my dreams in the ground.
Watch what happens when the rain comes down,
Watch what happens when the rain comes down.

Baby I was wondering what you got going on,
For the rest of your life when I'm through with this song.
Cuz I got this nice piece of land, just outside of town.
And I was thinking I'd like to settle down,
I was wondering if you'd like to settle down.
