1. Here i am alone in the street where nobody else here
Here, i spend my whole time walking, nothing to do
But, could else see me
In this place where i have been
Have you ever kknow who really you are(Chorus)
2. Eachj other helps out if they try
To help one another
Nothing will change
If only people try to...

Chorus:
Help out each other
Where you are, there is someone
Watching you over
There is someone taking care of you
Nothiong else will change here
If only people try to
Make anybody special.

Bridge:
If they could help out each other,
they could bring peace
Theymakes people special when they help
Each other
