Up on the mountain I'll be counting  
days 'til we meet again  
Get my revenge We'll never be friends  
keep building up my brain  
Just watch your back For my next attack  
you never know when I'll strike  
Could be today Don't get in my way  
you'll see what you'll never like

I've got the brain  
I'm insane  
(You can't stop the power)  
See you in pain  
Yet again  
(you won't stop the power)

I'm your creator And your enslaver  
I can destroy you all  
You've got the brainpower Of a sunflower  
get ready for a fall  
I'll find a way To spoil your day  
to stop you from doing good  
I'll take you out It's no use to shout  
I'd break you, you know I would
