The universe darkness where once was earth

I wanna feel the rain again  
Never felt so good since then  
I wanna feel the rain again  
Remember it so good from then

We're approaching millegulum, passing Orion  
In our starship darkness  
Where once was earth

I think of you on the beach with me in the sand  
And the rain is falling down  
Now I know that you're not around anymore

I wanna feel the rain again  
Never felt so good since then  
I wanna feel the rain again  
Remember it so good from then

Yeah yeah yeah, ohh ohh ohh

In... comes a whole new world  
For a million years of traveling through the universe  
Time goes

I'm all alone and the stars alone in the dark  
There's no way to be found  
But I know that you're not around anymore

Rain rain rain down on me (3x)

It's a big time for  
Five seconds, five seconds, four, three, two, one  
Back to the year 2001  
Back to holand  
Mission to save earth  
Success unknown

Yeah yeah yeah, ohh ohh ohh (3x)

I wanna feel the rain again

Never felt so good since then  
I wanna feel the rain again  
Remember it so good from then

Rain rain rain down on me (3x)
