Chorus:

You wonder why I'm still on the block 'cause I just can't
leave it babe
'cause that's all I know
Throw the gut away when you see the cops come back
and retrieve it babe
'cause that's all I know
'cause that's how we roll
from the gut straight to your front door
'cause that's all I know
a bunch of thug niggas put them appetite
then you know we gonna feel it babe
'cause that's all I know

SO the top it's my destiny to the death in me
baking soul and ice was the recipe
big boy in the big toy plane watch connecting with the
connect
soon as the fame stop
some said that I lost it I don't know what they talking
they used to be ross it
they used to be boss it
Tony dances with two bitches who the boss
and use to the best back to back you exhausted
that the paws in that cuatro got the cars
on a block with the property nobody guards

[Chorus:]

My mama made me, the block raised me
raggon baby, pradagot the aimies
