Your looking so frustrating
Girls would make you trick
You found out what I'm feeling
Get it out, play tricks

Addicted to my body
You dreamed to fit the end
After all why don't you understand

Shut up Get outa here
Don't cry your childish tears
I never thought of me and you, My Dear
Shut up. Get outa here
You've gotta lose your fear
I know your mom will cheer you up my Dear
Shut up. Get outa here
Why don't you disappear
I never thought of me and you my Dear
Me an ice cold angel
And you the fool for love
You look like George the 2nd
You were not good enough
Addicted to my body
You dreamed to fit the end
after all why don't you understand

Shut up. Get outa here
Don't cry your childish tears
I never thought of me and you, My Dear
Shut up. Get outa here
You've gotta lose your fear
I know your mom will cheer you up my Dear
Shut up. Get outa here
Why don't you disappear
I never thought of me and you my Dear
