Small town girl
Wants to see the world
That she's never seen
She's got plans
Doing what she can
To live out those dreams

So hot, won't stop
Until she gets what she wants
Rippin up all the boys hearts

Break out of this dead end town
Gonna hit the ground runnin
Never gonna turn around
Break out of this dead end town
And never turn around

Crush by crush
Leaves em in her dust
As the bodies fall
One step closer
Taking the world over
Baby wants it all
