Drop dead gorgeous  
What else can I say?  
She's got a way about her  
Lights up anyone on their darkest day

She's the type of girl  
That makes the boys go wild  
Hypnotized by her eyes  
Break your heart with a smile  
She'll put her spell on you

I gotta tell you girl  
It seems you've got me fallin' for you  
With every waking move  
I can't you out of my mind  
And everything you do  
It just keeps me falling for you  
I'm falling for you

Drive me crazy  
That's the game that we play  
I'm not the type of guy to ever feel this way

Baby, I'm the type you see in your fantasies  
You and me, face to face  
There's no need to dream  
And you know what to do
