Made it clear from conception
When will I learn my lesson
Can't we see this eye to eye
I just want to live my life
One day at a time
Lookin to have some fun tonight

Baby, I've been jaded
Better realize you're never gonna change me
I want what I want, so face it
Baby I've been jaded

I don't chase em, I choose em
Play to win, never lose em
If you wanna change my mind
Gotta catch me by surprise
One chance, get it right
Don't waste my time

Didn't happen overnight
If you wanna change my mind
Gotta catch me by surprise
Hold tight, it's a wild ride
