Picture perfect, at the moment it was taken  
You will be mine...  
The fun is over and your life has been wastin'  
You will be mine...

I've been watching, waiting, planning out my every  
move  
Taking your love, cause girl he don't deserve you (but I  
do)

See the problem, I could be your solution  
It's a matter of time...  
I'm standing right here to show just how wrong you're  
doing  
It's just a matter of time, before I make you mine...

I know how to treat you right and steal your heart, so  
hold on tight  
This is the first thing I've ever believed in
