"First Love Never Dies"

Visit "[First Love Never Dies](#)" on MotoLyrics.com

All at once I miss you
So long since I've kissed you
How I love to look into your eyes

Yes, I still dream about you
My world is lost without you
For you were my first love, and
First love never ever dies

Seems like yesterday
We both went out separate ways
One last kiss and then we said goodbye

The love I left behind me
Comes back to remind me
That you were my first love, and
First love never ever dies

When you're young
You sometimes make mistakes, but then
Where love is strong
It never hurts to try again

So, if you're thinking of me
And you find you still love me
There's no use to go on living lies

Let's hurry to each other
For there can be no other
For you were my first love, and
First love never ever dies

For you were my first love, and
First love never ever dies
