Shy girl, shy girl
Don't shy away

Little shy girl
I'd like to make you my girl
But each time to try to catch your eye
You always look away

Little shy girl
I wish that you were my girl
If only you know I'm shy like you
You might not run away
And maybe you would stay
(Little shy girl, stay)

And even when you're near
You're like a distant star to me
How can you be so near
Yet seem so very far from me

Little shy girl
If only you were my girl
If only you knew I'm shy like you
Then maybe you might stay

Oh, please don't shy away
(Stay, little shy girl, stay)
I've got so much to say
(Shy girl, be my girl)

Don't go away, shy girl
(Shy girl, be my girl)
Don't go away, shy girl
(Shy girl, be my girl)

Don't go away, shy girl
(Shy girl, be my girl)...
