I won't ever give up  
I won't ever give up  
You've put me in this rut before  
But I won't give in anymore  
I know what goes on in your sick little head  
I know what all of my friends have said

This time I won't give in  
What you've done is a sin  
And with me  
That's not happening

You try to play your games  
In the end they're all the same  
In the end they're all the same

I know what you're tryin to do  
But you'll never get through  
To me...  
I may seem all innocent  
But boy, you haven't seen me yet  
Just give it up  
Cause I'm not givin in

This time I won't give in  
What you've done is a sin  
And with me  
That's not happening

You try to play your games  
In the end they're all the same  
In the end they're all the same

Oh...  
I know who you are  
And trust me, we'll never get that far...
