Tonight the world is calling my name and I know I gotta go,  
To another place somewhere far away, here I don't wanna stay.  
Cause I'm sick of the routine and I'm tired of this game,  
It's time to leave! It's time to go! Into the unknown...

Journey into the unknown... I'll never come back again.  
Journey into the unknown... maybe into the end  
Journey into the unknown... and it never will be the same  
Journey into the unknown... maybe into, maybe into the end

This city is a ghosttown and all the people around are dead.  
I know I don't belong here, this place is driving me mad.  
Cause every day seems to be the same and nothing we can do.  
It's time to leave! It's time to go! Into the unknown...

I need adventure. I need to fight,  
Against demons and dragons tonight.

Journey-Journey into the unknown

Tonight the world is calling, the world is calling my name,  
I know I gotta go to another place somewhere far away.  
Cause I'm sick of the routine and I'm tired of this game.  
Every single fuckin'day, seems to be same.
