

## Cashless "Stop Crying"

Please, please stop crying,  
Don't shed no tears, it isn't worth it at all.  
Forget your sorrows, leave them behind,  
Get rid of the black clouds in your mind.

When you're down, get up and raise your head.

I don't want you to drown, to drown in your own tears.  
Get your self out, out of this vortex.  
Show the world that you don't care about the  
disappointments.

When you're down, get up-get up  
And raise your head-raise your head

Don't be sad too long-cause the show must go on-yeah
