Together we're screaming for a better world.

About the things, nobody is fighting for.

Our attitude is not-not like yours.

You're close minded like everybody else.

What do you see just when you look at me?

Yeah I know, I got the wrong way to go-

Wrong way to go!

I can't understand that you always close your eyes.

Are you blind or won't you face reality.

I'm sad to see that your mind isn't free-your mind  
isn't free
