

Bear in Heaven "You Do You"

Visit "[You Do You](#)" on MotoLyrics.com

Well I heard a rumor
The new man no words
Talking about us
And making a long list
Of to-do's that they don't need from you

They want to forget
You were ever born
They want to reset
You were ever born

How to begin
Down the corner right?
How to begin
Down the ground and right?
How to begin
ShoutÂ ?

Well i heard a rumor
The new man no words

Talking about us
And making a long list
Of to-do's that they don't need from you

They want to forget
You were ever born
They want to reset
You were ever born

To let the forces
Arm your heart
Don't let the rumors
Get you down

So what? Who cares?
You be strong
Don't let the rumors
Wear you out
