"King Me"

Visit "[King Me](#)" on MotoLyrics.com

We've gotta stop a situation
Form getting out of hand
You beat up the chance and beat the plans
So get that stuck in your head
The ties and strategies you're making
Wont reshape the end

Now I can't go on like this

What is up, the common sense
Was lost in minds of forlorn hearts and innocence
You never meant anything
Before we broke these codes
It was bros before hoes girl you know that

What is up, the common sense
Was lost in minds of fallen hearts and in a sense
You never meant anything
Before we broke these codes
It was bros before hoes girl you know that

We weren't bound to beat them
You classed crimes as cruel intentions to the cause
Just to relate the pros and constant contradiction
Of no queen on this board and
Rely on careful close formation to feed the hoard

Life sometimes it means so much to me
Get up inside, I bide my time
As I lie in this dark recession

Waste sometime, a lifes a price to pay
Get up inside, I bide my time
As you lie, you lie through your teeth
