Living with this barcode deep inside  
Looking through the black cage burnt behind my eyes  
Night affection, terminal infection  
Binary abscess on this festering nation

[Pre-chorus:]

Black I feel-bleeding still  
To mute encoding I close my eyes  
I'm rather blind than this barcode inside  
Like a tumor ones and zeros burn my bones  
I'm without within like mechanical stone  
Devaluation, degradation  
I'm good at reduced price for this goddamn nation

[Pre-chorus]

[Chorus:]

Oh sweet night I'm falling down  
I'm poison-veined, generated, enslaved  
Hold my arms Embrace me now  
Coded and insane I'm poison-veined right now

Poison-veined  
... my poison is life

Like clet against machinery seems my war  
But all the atoms was believed so undividable  
Night affection, terminal infection  
I want to be an abscess on this binary festering  
godforsaken nation

[Chorus]
