I'm coming to the best part of my life
Catching fire, climbing higher
There's nothing I can see to hold me down
I'll keep tryin' till I'm flyin'

And I'm feeling no pain
There's a song that's mulling in my brain
I wanna sing
I'm going out of control
To the music that's in my soul
I wanna sing

Today could be the best I've ever known
If I take time, I can make time
I'm going where I've never been before
Won't be long now, gettin' strong now

And I'm feeling no pain
There's a song that's mulling in my brain
I wanna sing
I'm going out of control
To the music that's in my soul
I wanna sing

I finally feel the futures on my side
No more blue song, only new songs

And I'm feeling no pain
There's a song that's mulling in my brain
I wanna sing
I'm going out of control
To the music that's in my soul
I wanna sing

Cause I'm coming to the best part
Yes, I'm coming to the best part
Now, I'm coming to the best part of my life
