*Verse 1:

You can make the rain fall, not returning my calls, you don't know, you don't know. I didn't wanna go fast, I'm fallin off track, you steady so steady.

Pre-Chorus

I lock the door, and close my blinds, I don't want no one to see me, I turn my stereo up high, so that no one can kill me.

Chorus

Banging on the walls cuz i don't know what else to do, and they won't fall down, bangin on the walls pretending these walls are you, they don't fall down, they don't fall down. hear the walls go whoa whoa oho oh

You always said you'd be right there, but you not right there, you don't care, you don't care, at night I be sleeping with my teddy bear pulling out my hair, it's not fair, you really don't care

I lock the door, and close my blinds I don't want no one to see me, I turn my stereo up high, so that no one can kill me
