[Chorus]

He said he had fallen so in love with me
And I said ditto, ditto, ditto
He told me Iâ€™m the only one that he could see
And I said ditto, ditto, ditto

Itâ€™s been a while my baby
I told you we could love in spite of all the things that
they see
I said I wouldnâ€™t want no one if all you wanted was me
I knew back then you were the only one youâ€™re all that
I need
Oh, (Knew where were all that I need)
(Baby now I gotta be-part of you, youâ€™re part of me)
All my heart, everything
All this time youâ€™ve been right here

[Chorus]

He said he had fallen so in love with me
And I said ditto, ditto, ditto (and he said)
He told me Iâ€™m the only one that he could see
And I said ditto, ditto, ditto

Iâ€™ve looked far for somebody that was there for me
Cause heâ€™s part of me nobody else could ever see
(And donâ€™t say) ah baby (I need youâ€™re loving)
All I wanted was you (youâ€™re all that I wanted)
(Baby now I gotta be-part of you, youâ€™re part of me)
All my heart, everything
All this time youâ€™ve been waiting

(Iâ€™ve thought about it oh so long) yeah
(How much I need you more and more)
I said (baby if you want it from me)
Boy you know that I will agree
Thatâ€™s why

[Chorus]

He said he had fallen so in love with me
And I said ditto, ditto, ditto (and thatâ€™s when he told
me yeah)
He told me Iâ€™m the only one that he could see (said

that Iâ€™m the only one)
And I said ditto, ditto, ditto (oh thatâ€™s when I had to
tell him)

Ainâ€™t it so funny how real love can be simple babe
We find someone to share it with that feels the same
I can see it in your eyes what you mean to say
And baby you can rest assured that I feel the same way

[Chorus]

He said he had fallen so in love with me
And I said ditto, ditto, ditto
He told me Iâ€™m the only one that he could see
And I said ditto, ditto, ditto

[Chorus]

He said he had fallen so in love with me
And I said ditto, ditto, ditto
He told me Iâ€™m the only one that he could see
And I said ditto, ditto, ditto
