

## Cassie "End Of The Line"

Visit "[End Of The Line](#)" on MotoLyrics.com

Every time you hear my music  
Run a race and I'll finish mine  
We just crossed the  
Finish line

Had enough time to fix it  
But it's over  
Boy you overdid it  
Way too much, too much, too much  
Baby I was for you  
And making this work  
Now we're all broken up

End of the line  
Baby are we supposed to be at the  
End of the line  
I see you and me at the  
End of the line  
End of the line  
E-e-e-end of the line

We're over and done  
But you're still telling me that you can't do right  
I know we're meant to move on  
So I'll just keep on running

It don't matter, it don't matter if you're coming back  
It don't matter, it don't matter if you're coming back  
You shouldn't waste your time  
End of the line (end of the line, end of the line)

Finish line  
We just crossed it  
We just crossed the  
Finish line  
And boy you know  
We can't pretend it's not over  
Becuase

Boy you overdid it (this time)  
Way too much, too much, too much  
Baby I was for you

And making this work  
Now we're all broken up

End of the line  
Baby are we supposed to be  
At the end of the line  
I see you and me at the  
End of the line  
End of the line  
E-e-e-end of the line

We're over and done  
But you're still telling me that you can't do right  
I know we're meant to move on  
So I'll just keep on running

It don't matter, it don't matter if you're coming back  
It don't matter, it don't matter if you're coming back  
You shouldn't waste your time  
End of the line (end of the line, end of the line)

Finish line  
Finish line  
Over

End of the line  
Baby are we supposed to be  
At the end of the line  
I see you and me at the  
End of the line  
End of the line  
E-e-e-end of the line  
We're over and done  
But you're still telling me that you can't do right  
I know we're meant to move on  
So I'll just keep on running

It don't matter, it don't matter if you're coming back  
It don't matter, it don't matter if you're coming back  
You shouldn't waste your time  
End of the line (end of the line, end of the line)
