you will never know how i fell inside the pain  
i kown is real  
it hurts to speak of the past that i had with you  
the times that you hurt me  
the times you let me down  
i let you push me around  
now look where i am now

(CHOURUS)

i am upside down  
twisting inside out  
trying to breath  
catching all my air that i lost waisting my words  
on you oh yeah its true  
i like i'm over you

everything is upside down  
when sun is up i am fast asleep  
and when the moon come out  
you know i'm out  
with some else not you

(CHOURUS)

i am upside down  
twisting inside and out  
trying to catch my breath  
catching all my air that i lost waisting my words  
on you oh yeah its true  
i think i'm over you

you know you missed  
you know i've moved on  
i'm already gone  
thanks for leaving me  
now your all alone  
now who you gonna boss around not me  
no way  
you think your better then me  
well geuss what your not  
your  
heart is ice cold to late now

be gone it over  
i'm gone

(chourus  
i am upside down  
twisting inside and out  
trying to catch my breath  
catching all my air that i lost waisting my words  
on you oh yeah its true  
i think i'm over you

fell that pain  
oh yeahh  
get used it  
the way act  
its gonna be there for good

fell that
