Pretty girls with them rolexes, no time for a hoe flexin
Pokin out of that wife beater, big cuffs she so texas
Big booty, that get attention, like a rap star and a gold
necklace
Ass need management, and a bodyguard that wear 4
exes
Bad boy need a bad bitch, casolina need fappin
Me and you make hot shit,
You the gasoline, I'm the match stick
Like woof, we will burn this bitch down
She turnt up and can nobody turn this bitch down

You want it, I need it, you got it, I'm fiending
A sauna, I'm hot as a phoenix
You fuck me, fuck me like you mean it
Spank me you know I've been a bad girl
But every bad boy needs a bad girl
I look into the mirror, like attitude, like that girl
Heard she nothing like me, the pearl are on and white
teeth
Redbone so fisty,
Hope you round wherever I be
I promise if I never did it then it's time to tell you

I love it, I love it, I love it
I love it, I love it, I love it
I love it, I love it, I love it
I love it, I love it, I love it

You say you wanna taste, alright
I'm steering through the stage, am I
Another round the pole and now
Just to make sure that she throw it down, on me
She throw it down, throw it down
...baby, let me break it down
Heard she don't do it like me, the pearl are on and
white teeth
Redbone so fisty,
Hope you round wherever I be
I promise if I never did it then it's time to tell you

I love it, I love it, I love it
I love it, I love it, I love it
I love it, I love it, I love it
I love it, I love it, I love it

Yeah, drop top with the ab showin
Drop top with the head blowing
Reggie shit start coming on
She stopped, popped and get along
I look back and smile at it
I'm on that like my name tattered
We are, dr, mami thinking my name is daddy
But no way, hose, I feed your a bottle of rose
And spank that for being bad, them words, they tell you
don't say
Talking to me in spanish, tell you what my plan is
Bust you one, smoke one, when the smoke clears, I
vanish

I love it, I love it, I love it
I love it, I love it, I love it
I love it, I love it, I love it
I love it, I love it, I love it.
