Cassie, Next Selection, R-Les

*[Cassie]*

Just one night to be with you again,  
'cause I miss the way (what)  
That it felt when we made love, oh.  
Just one night to be with you again,  
'cause I miss the way... miss the way we made love.

I ran across  
a picture of us,  
I admit I almost cried, oh.  
It made me realize how much I miss ya  
How my life ain't been the same since you're gone,

Left on my own, left with an empty space (can't hide)  
Everything reminds me of you,  
Next thing I know that's when I see your face.  
And I know all I need...

Just one night to be with you again (one night to be with  
you),  
'cause I miss the way  
That it felt when we made love, oh  
Just one night to be with you again,  
'Cause I miss the way... miss the way we made love.

Uh,

I hope that you've been, that you've been missing,  
Missing me the way I miss you.  
It's so confusing,  
my mind I'm losing,  
And I hide it everyday.

Left on my own, left with an empty space, (can't hide)  
everything reminds me of you,  
Next thing I know that's when I see your face.

And I... (yeah)

And I know all I need is just...

Just one night to be with you again (one night to be with you),

'cause I miss the way (I miss the way we made love, love, love, love)

Just one night (just one night) to be with you again (one more night)

'Cause I miss the way ('cause I miss the way we) made love

*[R-Les]*

You wanted to break up

Now you calling me up

Justa matta of time girl

Before you wanda what's up

No need to explain baby

I can see in ya face

The real thing is real hard to replace

Ain't it?

You can try to play dumb

You can try to deny it

You can say it's my fault

But you know it's a lie

Your the only one that

didn't think I was for real

Now I'm gone

tell me how does it feel?

You miss me, don't you?

You know you don't feel complete...

Just one night to be with you (one night to be with you) again,

'Cause I miss the way (I miss the way we made love, love, love, love)

Just one night to be with you again (all I need is one night),

'Cause I miss the way we (the way we) made love

Yeah, uh, haahhhhhhhh, whoooo, ahhhhh
