My house [3x]

[Pre-Chorus] [2x]

You won't even wanna go  
Tell me that you love me so  
You will never wanna leave  
Promise that you'll stay with me

[Verse 1]

Feels like you want me, babe  
And I'm gonna give it to you  
This is my castle, babe  
I wanna help you find your way through

So, let me know if you got no place to go  
(Go, go, go)  
But if you at my house we can flow [?]  
Let me know if you got no place to be  
(Be, be, be)  
You can ring my bell and come see me  
(Ring my bell and come see me)

[Chorus]

You won't even wanna go  
Tell me that you love me so  
You will never wanna leave  
Promise that you'll stay with me  
If I had you [7x]  
My house, if I had you in my house  
My house  
If I had you [7x]  
Boy, I want you in my house

[Verse 2]

Wait until you see  
What I've been hiding upstairs  
There's no security  
Take my hand and follow it if you dare  
There's a candel light glare  
If I take you through my double doors  
Would you wanna see some more?

Let me know if you got no place to go  
(Go, go, go)  
But if you at my house we can flow [?]  
Let me know if you got no place to be  
(Be, be, be)  
You can ring my bell and come see me  
(Ring my bell and come see me)

[Pre-Chorus]  
You won't even wanna go  
Tell me that you love me so  
You will never wanna leave  
Promise that you'll stay with me

[Hook]  
Feels like you wanted so much  
Feels like you waiting for my touch  
Feels like you want it right now  
And I'm about to give it to you

[Chorus]  
You won't even wanna go  
Tell me that you love me so  
You will never wanna leave  
Promise that you'll stay with me  
If I had you [7x]  
My house, if I had you in my house  
My house  
If I had you [7x]  
I want you in my house  
Boy I want you in my house  
I will take you in my house  
My house  
If I had you in my house
