Intro:

So hot
Don't know what to do
'Cause I'm so shy
I'm fuckin with you

Verse 1:

I know what I wanna, no shame no hating
But if that's your date, then you need a
replacement
No shame no hating, no lines, no waitin'
No body language, no conversation
Just meet me in the back of the room
When I find out that you will
I wanted to do it here
I think we should make it
You can be my souvenir, yeah

Chorus:

Cause kissing you was very nice
The rest of you was paradise
You shook me like a paradise
I be rolling like a paradise
I be fuckin with him every night
Fuckin with him every night

Verse 2:

I know what I wanna,
No wait no patience
F*cking with 'em every night

I know what I wanna,
No wait no patience
Don't trip don't say shit
Private location
No shit no hating
Your girl can't say shit
No body language no conversations

(Pre Chorus)

Just let me do whatever with you
Gimme some I'm not scared,
Give it back and I share
Vacation at my place
I can be your souvenir
Yeahhhh

Cause kissing you is very nice
The rest of you is paradise

Wiz Khalifa

I walk in through the back
Can't go through the front
My engine go on the back
Trunk go on the front
She was giving me brains
While I was rolling with none
When I shoot it I score
When I hit it she jump
Don't see no D's
When I'm pulling up E's
When I'm pulling up P's
We'll be out of our Wiz
Started going on overseas
Started rolling at trees
I'm buying it all, I don't like your tees
Oh you ain't heard, I'm in the game
And I ain't on stage, darling but scream my name
So the next steps we goin' get a plane
Then we fly a place where don't nobody know us
Then I'm gonna wait to say what you want
Then I'm going in for a taste especially below your
waist
I got a plan for the place
I got a band for the case
You told me play my cards right
I got a hand full of aces
Fucking with you every night
Body looking very tight
And err...

The rest of you is paradise
Got me shaking like a paradise
Body rolling like a pair of dice
I'll be fuckin with him every night
Fuckin with him every night
